# bernette® 82e

for **BERNINA**

The bernette 82e has been mechanically designed to ensure powerful, consistent needle penetration for all fabrics at any speed.

The needle stop up/down function, generous stitch package and quilt stitch selection help bring even your most creative ideas to life with ease. Plus, it's gorgeous metallic purple finish will surely get some attention when you travel or tote it to your classes.

# bernette® 92c

for **BERNINA**

With its LCD and 150 stitches, the bernette 92c is the top-of-the-line bernette. No matter what type of project you're creating, functions like a programmable needle stop position, twin needle support, simple stitch modification, slide speed control and drop-in bobbin system make sewing a breeze. Plus, your stitches are displayed on a large screen, so you can select and recall your settings in seconds. It's the ideal machine for all your creative sewing adventures.

### LCD and Slide Speed Control

Once the stitch is selected, it is displayed in the LCD with the recommended basic setting. The slide speed control allows you to easily adjust the maximum speed. The electronic motor regulation ensures strong, consistent needle penetration power.

### Scroll Function

Two scroll buttons allow for easy stitch selection.

### Start/Stop Button

The start/stop button lets you start and stop the sewing process without operating the foot control—a particularly comfortable option when sewing long pattern sequences.

### Needle Stop Up/Down, Securing Function

Set the needle to stop automatically in the "up" or "down" position. The securing function enables automatic stitch securing at the pattern's end.

### Reverse-sewing Button

Conveniently located above the needle area, the reverse sewing button gives you the ability to secure your seams quickly and easily.

### Automatic Needle Threader

Quick and easy threading. Press the lever and the thread is in the needle—it's as simple as that.

### Optimum Sewing Light

Two LED lights, one in the frame and one in the needle-bar area, provide optimum illumination of the work area.

### Two Thread Cutters

One thread cutter on the head cover and a second one built into the stitch plate on the left for convenient thread-cutting.

### Automatic Buttonholes

Perfect buttonholes matched to button size in an instant.

### Balance

For calibrating feed for different types of fabric.

### Adjustable and Second Spool Holder

An adjustable spool holder in combination with the second attachable spool holder ensures optimal threading when using twin needles.

### Direct-selection Buttons

The direct-selection buttons 0-9 allow quick and direct selection of 10 frequently used stitches.

### Free Arm and full-length Base Plate

Remove the extension table for access to the bernette's free arm, which enables easy sewing of sleeves and other tubular items. The full-length metal base plate provides a sturdy sewing platform for any task on this quiet, low-vibration, comfortable-to-use sewing machine.

### Quick-reference Guide with Presser-foot Compartment

A fold-out quick-reference guide with explanatory graphics and a presser-foot table are handy stored in the drawer, which also contains a compartment for presser feet.

### Improved Hook System with Drop-in Bobbin

Quick and easy top-loading of the bobbin into the revamped bobbin unit. The arrow marking on the gripper finger ensures easy, accurate threading. The slide bobbin cover means you're ready to resume sewing in no time flat.

# bernette® 66

for **BERNINA**

The bernette 66 has an improved drop-in bobbin system to make threading easier and more convenient than ever before.

Its decorative pearl green face, 7mm decorative stitch patterns and unique stitch package will have you creating in style. You're also going to love the quick reference guide, automatic one-step buttonhole, automatic needle threader, and sturdy metal base plate.

# bernette® 56

for **BERNINA**

This user-friendly machine offers quality performance and great looks at an affordable price.

The bernette 56 is perfect for the occasional sewer. With variable stitch width, an automatic needle threader and more stitches than ever before, it's a snap to achieve beautiful results in decorative stitching, mending, embellishing and so much more.
